Profile

As a committed web and software development Bachelor actively seeking industrial opportunities, I specialize in crafting efficient, user-centric solutions. My objective is to contribute skills and passion for innovation, collaborating with a dynamic team to excel in diverse projects and domains.

Education

BACHELOR OF APPLIED INFORMATION TECHNOLOGY   **JULY 2021 – JULY 2024**
WHITECLIFFE COLLEGE, CHRISTCHURCH

Experience

UX/UI Designer- Internship | Zyronic Limited | March 2024 to July 2024
- Designed and developed user interface wireframes, mock-ups, and prototypes using Figma, focusing on intuitive user experiences and aesthetic design principles.
- Collaborated closely with cross-functional teams including developers and product managers to translate business requirements into functional, visually appealing designs.
- Conducted user research and usability testing to gather feedback and iteratively enhance designs, ensuring alignment with user needs and behaviours.
- Implemented design systems and maintained UI consistency across multiple platforms, adhering to brand guidelines and accessibility standards.
- Contributed to the overall product design strategy by proposing innovative solutions and iterating based on feedback from stakeholders and end-users.

Skills & Abilities

Technical skills   **Soft skills**

Technical skills	Soft skills
Web development (HTML, CSS, Javascript)	Client Relations and Support
Mobile development (React Native)	Project and Time Management
Software development (C#)	Problem solving
Database (MySQL and MongoDB)	Communication
Software Prototyping and Design (Figma)	Willingness to learn

Highlights:

Café Replica Website (Client-side Development):

- Developed a cafe replica website using HTML, CSS, and JavaScript in the Client-side Development course.
- Created an interactive and user-friendly site providing comprehensive information about cafe operations.
- Emphasized appealing design and responsiveness.

Mobile Application Development (React Native):
- Developed a mobile application for a school organization project using React Native.
- Enabled students to enrol, add, delete, and update profiles within the application.
- Gained valuable skills in app development, database management, and user focused design.

Bank Application Development (C# and MVC Architecture):
- Developed a bank application using C# with a focus on MVC architecture and object-oriented programming.
- Focused on prioritizing user-friendly features such as account management and secure transactions.

These projects showcase my proficiency in web and mobile development, highlighting my commitment to user centric design and functionality.

Activities and Interests
- ❖ Traveling: Enjoys exploring novel places, fostering adaptability and a global perspective.
- ❖ Cooking: Passionate about experimenting with food, highlighting creativity and attention to detail.
- ❖ Music: Finds joy in listening to music, highlighting a well-rounded and diverse lifestyle.
